

# Less Burnout, More Breakthroughs

## ESGI Supports Teacher Satisfaction and Retention

Teacher retention is one of the biggest challenges facing schools today. In fact, 44% of teachers report feeling burned out often or always, leading to many leaving the profession. School and district leaders don't have to wait for things to get better on their own.

### ESGI Helps Keep Great Teachers in The Classroom

Users Reporting They Would Recommend EdTech Product to A Friend Or Colleague

“ESGI has created my dream classroom by allowing me more time to spend with my students. I have been using ESGI for the past 6 years and I can't imagine life without it. I am able to assess the students in half the time which frees me up to teach.”

**Tracey Vianden**  
Teacher at Valley Central School District, NY

### The Secret Weapon Against Teacher Burnout

Teacher burnout is about more than just workload. It’s caused by a lack of support, unclear data, and too many tasks that take time away from teaching. ESGI can help.

Burnout Factor	The Impact on Teachers	How ESGI Helps
Excessive Administrative Tasks	<b>33%</b> say non-teaching work is a top burnout factor <sup>1</sup> <b>74%</b> are covering extra duties <sup>2</sup>	Automates progress reports, IEP tracking, and parent communication to <b>reduce paperwork</b> .
Lack of Instructional Support	<b>45%</b> of new teachers leave within 5 years <sup>3</sup>	Provides real-time, actionable data to guide instruction and reduce guesswork <b>driving quick wins and boosting teacher confidence</b> .
Lack or Recognition or Feeling Undervalued	<b>64%</b> of US teachers report they do not think their profession is highly valued by society <sup>4</sup>	<b>Reports that are easy to understand and share</b> help demonstrate progress to admin and families—validating the teacher’s impact.
